GOOGLE MAPS · PLASTIC SURGERY

YOUR PHOTOS ARE THE FIRST CONSULT.

GOOGLE MAPS, EXPLAINED.

Before patients meet you, they look at your Google photos.

SWIPE →

THE PROBLEM

STOCK PHOTOS DON'T BUILD TRUST.

Patients choosing a surgeon want to see the real clinic and the real team. A profile with few photos, or only stock images, feels anonymous.

STOCK IMAGES	**NO** TEAM	**OLD** PHOTOS

1

STEP 1 OF 5

SHOW THE OUTSIDE.

Help patients find you: entrance, street view, parking.

BEFORE

- No exterior photo
- Hard to find
- Late arrivals

AFTER

- Clear entrance photo
- Parking shown
- Easy first visit

SWIPE →

2

STEP 2 OF 5

SHOW THE INSIDE.

Reception, consultation room, recovery area. Calm and clean.

BEFORE

One blurry photo

Empty corridors

Feels cold

AFTER

Reception and rooms

Natural light

Feels safe

3

STEP 3 OF 5

SHOW THE SURGEON AND TEAM.

People trust faces. Add real photos of the surgeon and staff.

BEFORE	AFTER
Logo only	Surgeon portrait
No people	Team at work
Anonymous	Friendly faces

SWIPE →

4

STEP 4 OF 5

ADD A SHORT VIDEO TOUR.

A 30-second walk through the clinic answers many questions.

VIDEO TOUR IDEAS	KAALA
Start	FRONT DOOR
Then	RECEPTION
Then	CONSULT ROOM
End	SURGEON SAYS HELLO

SWIPE →

5

STEP 5 OF 5

KEEP IT FRESH.

Add new photos regularly and check what others have uploaded.

BEFORE	AFTER
Same photos for years	New photos monthly
Random uploads	Check public uploads
Wrong images	Report off-topic ones

WANT A PROFILE THAT FEELS LIKE YOUR CLINIC?
