THE PROBLEM

HAPPY PATIENTS LEAVE. REVIEWS DON'T.

Most satisfied patients never think to write a review. The few unhappy ones often do. Without a simple system, your profile doesn't show how good your clinic really is.

HAPPY BUT SILENT	**OLD** REVIEWS	**NO** REPLIES

1

STEP 1 OF 5

ASK AT THE RIGHT MOMENT.

Ask when the patient is happiest: right after a good visit.

BEFORE	AFTER
Never asked	Asked at checkout
Asked weeks later	Friendly script
Awkward request	Every patient

STEP 3 OF 5

NEVER PAY FOR REVIEWS.

Google's policy forbids discounts or gifts in exchange for reviews.

4

STEP 4 OF 5

ASK EVERYONE, NOT JUST FANS.

Google also forbids asking only happy patients. Ask all of them.

BEFORE	AFTER
Only happy patients	Same ask for all
Filtering requests	Real mix of reviews
Against the rules	Trusted by patients

5

STEP 5 OF 5

REPLY, WITHOUT PATIENT DETAILS.

Thank every reviewer. Never confirm treatment or share health information.

BEFORE	AFTER
No replies	Reply to every review
'Your implant went well'	Warm and general
Health details shared	Offer to talk offline
