GOOGLE MAPS · DENTAL CLINICS

WHY THEY CALL THE OTHER DENTIST.

GOOGLE MAPS, EXPLAINED.

Same street, same treatments.
One clinic gets the calls.

THE PROBLEM

PATIENTS CHOOSE FROM THE TOP 3 ON THE MAP.

Someone types “dentist near me” and Google shows a map with three clinics first. Call button, reviews, photos, all one tap away. If your clinic isn't there, you're easy to miss.

STEP 1 OF 5

GOOGLE RANKS ON 3 THINGS.

Google says it itself: relevance, distance and prominence decide who shows up.

HOW GOOGLE RANKS LOCAL RESULTS	KAALA
Relevance	DOES YOUR PROFILE MATCH?
Distance	HOW CLOSE YOU ARE
Prominence	REVIEWS AND REPUTATION
Source	GOOGLE BUSINESS PROFILE HELP

2

STEP 2 OF 5

SAY EXACTLY WHAT YOU TREAT.

Your profile should match what patients search for, treatment by treatment.

BEFORE	AFTER
Category: Dentist only	Right main + extra categories
No services listed	Implants, aligners, whitening
Empty description	Treatment-first description

3

STEP 3 OF 5

REVIEWS THAT KEEP COMING.

A steady flow of recent reviews beats a big pile from years ago.

BEFORE	AFTER
Nobody asks	Ask after every visit
Few, old reviews	New reviews every week
No replies	A reply to each one

4

STEP 4 OF 5

SHOW THE REAL CLINIC.

Patients want to see the rooms and the people before they book.

BEFORE	AFTER
Stock photos	Real rooms and team
Last update years ago	Weekly updates
No team photos	Fresh photos every month

SWIPE →

5

STEP 5 OF 5

COUNT CALLS, NOT VIEWS.

Views feel nice. Calls, directions and bookings pay the bills.

BEFORE	AFTER
Guessing	Calls tracked
Only views	Direction requests
No idea what works	New patients booked
