LOCAL SEO · DENTAL CLINICS

PAGE 2 IN YOUR OWN TOWN?

LOCAL SEO, EXPLAINED.

People search 'dentist' plus their area. Your website should answer.

SWIPE →

THE PROBLEM

YOUR SITE SAYS 'DENTIST'. PATIENTS SEARCH 'IMPLANTS NEAR ME'.

Most dental websites have one services page for everything. Google can't tell which treatments you offer or which areas you serve, so it shows a competitor instead.

ONE PAGE	NO TOWN	NO CALL
FOR EVERYTHING	MENTIONED	BUTTON

SWIPE →

1

STEP 1 OF 5

ONE PAGE PER TREATMENT.

Implants, Invisalign, whitening: each one deserves its own page.

BEFORE	AFTER
One 'Services' page	A page per treatment
Short list of names	Prices and FAQs
Nothing to rank	Booking button

SWIPE →

2

STEP 2 OF 5

NAME YOUR TOWN AND AREAS.

Say clearly where you are and which neighbourhoods you serve.

BEFORE	AFTER
Address only in footer	Town in page titles
No area names	Nearby areas listed
Generic text	Directions and parking

SWIPE →

3

STEP 3 OF 5

SAME DETAILS EVERYWHERE.

Name, address and phone must match on your site, Google and directories.

CHECK YOUR DETAILS	KAALA
Website	NAME, ADDRESS, PHONE
Google	SAME DETAILS
Directories	SAME DETAILS
Result	GOOGLE TRUSTS YOU

SWIPE →

4

STEP 4 OF 5

MAKE IT EASY ON MOBILE.

Most people look for a dentist on their phone. Make calling one tap.

BEFORE	AFTER
Slow pages	Fast loading
Tiny text	Click-to-call
Phone number as image	Book online

SWIPE →

5

STEP 5 OF 5

ANSWER REAL QUESTIONS.

Write short answers to what patients ask you every day.

BEFORE	AFTER
No FAQs	'Does it hurt?'
Old blog	'How much does it cost?'
Questions by phone	'How long does it take?'

SWIPE →
