GOOGLE MAPS · PLASTIC SURGEONS

GREAT RESULTS. HIDDEN ON MAPS.

GOOGLE MAPS, EXPLAINED.

Patients research for weeks. Your Google profile is where they start.

THE PROBLEM

PATIENTS CHECK YOU ON MAPS BEFORE THEY EVER CALL.

A rhinoplasty or a breast augmentation is a big decision.
People compare clinics on Google: reviews, photos, details.
A thin profile makes a great surgeon look like a risk.

WEEKS	REVIEWS	PHOTOS
OF RESEARCH	BUILD TRUST	SHOW THE CLINIC

1

STEP 1 OF 5

LIST EVERY PROCEDURE.

Patients search the procedure, not your clinic name.

BEFORE	AFTER
Category: Plastic surgeon	Each procedure as a service
Generic description	Clear descriptions
No procedures listed	Matches what people search

SWIPE →

2

STEP 2 OF 5

ANSWER THE BIG WORRIES.

Your description, services and posts can cover what patients ask first.

WHAT PATIENTS WANT TO KNOW	KAALA
Recovery	HOW LONG IT TAKES
Consultation	HOW TO BOOK
Surgeon	CREDENTIALS
Location	PARKING AND ACCESS

3

STEP 3 OF 5

REVIEWS THAT BUILD TRUST.

Recent reviews and calm, professional replies.

BEFORE	AFTER
Few reviews	Ask after the follow-up
Unanswered complaints	A reply to every review
Old feedback	Never share patient details

SWIPE →

4

STEP 4 OF 5

SHOW THE CLINIC, NOT JUST RESULTS.

Before-and-after rules are strict, so lead with the clinic, the team and the experience.

BEFORE	AFTER
Stock photos	Real clinic rooms
Empty gallery	Surgeon and team photos
No team faces	Fresh photos every month

5

STEP 5 OF 5

COUNT CONSULTS, NOT VIEWS.

Views feel nice. Consultation requests pay the bills.

BEFORE	AFTER
Only views	Calls tracked
Guessing	Consultation requests
No follow-up	Booked consults
