META ADS · DENTAL

CHEAP LEADS, EMPTY CHAIRS.

META ADS, EXPLAINED.

Lots of form fills, few booked visits? Fix the form, not the budget.

SWIPE →

THE PROBLEM

EASY FORMS BRING EASY 'MAYBES'.

A one-tap form fills fast, but many people forget they even sent it. Your front desk ends up calling numbers that never pick up.

NO ANSWER	**WRONG** NUMBER	**JUST** BROWSING

SWIPE →

1

STEP 1 OF 5

USE A 'HIGHER INTENT' FORM.

Meta's lead forms have a setting that adds a review step before sending.

BEFORE	AFTER
One-tap submit	Review step on
Many 'maybes'	Fewer, warmer leads
Calls unanswered	More pick up

SWIPE →

2

STEP 2 OF 5

ASK ONE GOOD QUESTION.

For example: which treatment, and when would you like to come in?

BEFORE	AFTER
Name and phone only	Treatment chosen
No context	Timing known
Cold first call	Better first call

3

STEP 3 OF 5

CALL THE SAME DAY.

A lead is warmest right after the form. Set a simple routine.

LEAD ROUTINE	KAALA
Who	FRONT DESK
When	SAME DAY
Then	SMS IF NO ANSWER
Log	BOOKED OR NOT

SWIPE →

4

STEP 4 OF 5

TELL META WHO BOOKED.

Mark which leads became visits, so Meta can find more people like them.

BEFORE

Meta sees form fills

Optimises for clicks

More junk

AFTER

Meta sees bookings

Optimises for visits

Better leads

5

STEP 5 OF 5

JUDGE BY BOOKED VISITS.

Cost per lead looks nice. Cost per booked visit tells the truth.

BEFORE	AFTER
Cost per lead	Cost per visit
Looks cheap	Real picture
Chairs still empty	Budget where it works

SWIPE →

WANT LEADS THAT ACTUALLY BOOK?

We help dental clinics get found and booked through Maps, SEO and Meta Ads.
